Title: Introduction to Multer - Node.js Middleware for
Handling file uploads

Subtitle: Efficient file uploads with Multer

Soham Sagathiya

2: What is Multer?

- **Definition:**

- Multer is a Node.js middleware for handling `multipart/form-data` , primarily used for uploading files.

- **Key Features:**

- Easy integration with Express.js
- Supports multiple file uploads
- Customizable storage options
- File filtering based on MIME types

3: Installation

```
npm install multer
```

- **Command:**
 - The above command installs Multer via npm.

Basic Usage

- **Server-side Setup:**

- Use Multer middleware in an Express.js application.
- Define storage options and file upload handler.

- **Client-side Setup:**

- Specify the form enctype to 'multipart/form-data'
- Include the file input field in the form.

Server-Side Code Example

```
const express = require('express')
const multer = require('multer')
const upload = multer({ dest: 'uploads/' })

const app = express()

// single file
app.post('/profile', upload.single('avatar'), (req, res) => {
  // req.file is the `avatar` file
})

// multiple files
app.post('/photos', upload.array('photos', 12), (req, res) => {
  // req.files is array of `photos` files
})
```

Client-Side Code Example

```
<html>
<body>
  <h1>Upload File</h1>
  <form action="/profile" method="post" enctype="multipart/form-data">
    <input type="file" name="avatar" />
    <button type="submit">Upload</button>
  </form>
</body>
</html>
```

Customizing Multer

- **Storage Options:**
 - Disk storage
 - Memory storage
- **Advanced Configuration:**
 - File size limits
 - File filters
 - Handling multiple files

Demo Time!

- **Step-by-Step Demonstration:**
 - Start the server
 - Open client-side HTML in the browser
 - Select a file and upload
 - Show the uploaded file on the server

Error Handling

- **Common Errors:**
 - File type not supported
 - File too large
 - No file selected
- **Handling Errors:**
 - Use callbacks and middleware to respond with appropriate messages

Conclusion

- **Key Takeaways:**

- Multer simplifies file uploads in Node.js applications
- Customizable and easy to integrate with Express.js

Common Questions

What is Multer?

- Multer is a middleware for handling multipart/form-data, which is used for file uploads in Node.js applications.

How do I use Multer with Express.js?

- You can use Multer as a middleware in your Express.js application by adding `upload()` on `app` of `express`.

Thank You!
