

Soham Sagathiya

Python Developer

EDUCATION

Darshan University, Rajkot — *Diploma*

SEPTEMBER 2021 - APRIL 2024

- Completed Diploma in computer science and engineering with **8.30 CGPA** at the Darshan University in Rajkot, Gujarat.

Darshan University, Rajkot — *B.Tech*

JULY 2024 - PRESENT

- Pursuing B. Tech in computer science and engineering at the Darshan University in Rajkot, Gujarat.

EXPERIENCE

SOFTWARE DEVELOPMENT - INTERN, CODSOFT

OCTOBER 2023 - NOVEMBER 2023

- Completed internship focusing on Python development, building five projects with FastAPI for backend APIs, HTMX for frontend interactions, and Bootstrap 5 for responsive UI design.

FULL STACK DEVELOPMENT - INTERN, Code Clause

OCTOBER 2023 - NOVEMBER 2023

- I completed four software projects using Python and Streamlit: a music player, text editor, plagiarism checker with diffliB, and secure mail application. These projects enhanced my technical skills and collaborative abilities significantly.

SKILLS

- Languages** - Javascript, Typescript, Python
- Frontend Frameworks** - Next.js, React.js
- Backend Frameworks** - Node.js, Express.js
- Databases** - Postgres, MongoDB
- Networking** - Socket.io, Web Sockets, WebRTC
- UI Libraries** - Tailwindcss, Bootstrap, shadcn, daisyUI

CONTACTS

Rajkot, Gujarat, India

Hackathon Project: Shared WorkSpace Management Application — *Django*

Developed a full-stack application for ShareSpace optimizing shared workspace management with features including user authentication, profile management, admin dashboard for workspace control, and a booking system.

Code : <https://github.com/soham901/odoo-combat-2024-hackathon>

Showcase Video : [Hackathon Project Showcase Video](#)

Hackathon Project: Finance Management Application — *Django*

Created an expense management tool using Django during a college hackathon. Developed features for tracking expenses and managing budgets, demonstrating proficiency in Django framework and collaborative problem-solving skills.

Integration Pipeline with Ollama, Langchain, and FastAPI — *Python, Streamlit*

Developed a streamlined pipeline using Ollama, Langchain, and FastAPI. This system was designed to process text inputs efficiently without saving history, showcasing integration skills and data handling practices.

Code : <https://github.com/soham901/ollama-langchain-fastapi-projects>

Portfolio Projects: Full-Stack Web Applications — *Django, FastAPI, Prefect, Node.js*

Django Stock Data Project : Integrating Coinbase API for real-time stock data visualization.

FastAPI Prefect Integration for Leads Sync : Automating lead synchronization using Prefect and FastAPI.

CRUD Application with MongoDB : Full-stack CRUD operations management with FastAPI, Node.js, and MongoDB.
