Summary

Passionate full-stack developer with extensive experience in various technologies. Currently pursuing a B.Tech in Computer Science Engineering while freelancing for over two years. Proven track record in developing full-stack scalable applications with better architecture and modern UI.

Qualifications

- **Diploma in Computer Science Engineering** (2021-2024) Darshan University, Rajkot
- **B.Tech in Computer Science Engineering** (Pursuing) Darshan University, Rajkot

Technical Skills

- **Languages & Frameworks:** FastAPI, Django, Django REST Framework (DRF), Next.js, React.js, Vite, Tailwind CSS, Shadcn UI, Material UI, React Native (Expo)
- **Databases & Caching:** PostgreSQL, MongoDB, Redis
- **DevOps & Containerization:** AWS, On-prem (VPS), Docker, Github Actions, Caddy, Nginx, PM2
- **Automation and Tools:** LangChain, Celery, Prefect, Meltano

Professional Experience

- **Freelance:** *Unity Game Developer, Full Stack Web Developer, Data Engineering, React Native developer*

Projects

- **Code Bhajia** *Gamified Coding Platform* A LeetCode-like project that supports Python and Node.js, executing code in a fully isolated, secure environment. It's scalable and can be integrated with any serverless provider. AI-powered code feedback, Remote code execution, Problem management, VS Code-like editor. Showcase Video: <https://soham901.me/l/code-bhajia>
- **Healthcare Infrastructure Project** *Emergency Resource Allocation System* Developed using FastAPI and Next.js, this project creates a network of hospitals. In emergencies, hospitals can create requests, and our allocation algorithm distributes resources based on various strategies (cost-based, distance-based, greedy).
